

ELECTRONIC TECHNICIAN

(m/f/d)

WHO WE ARE: We are a steadily growing special machine manufacturer based in Chemnitz and have specialized in innovative complete solutions for quality assurance. We carry out the entire development process for the systems in-house - from brainstorming to construction and production to on-site commissioning. Our customers are large, global companies from all areas of industry. We continue to grow - for this we need you as:

ELECTRONIC TECHNICIAN (m/f/d)

in the field of special machine construction.

THESE ARE YOUR TASKS:

- Assembly and installation of assemblies, machines and automation systems based on construction documents and circuit diagrams
- Connection, installation and commissioning as well as testing of switch and control cabinets
- Maintenance and repair of our systems

YOUR QUALIFICATION:

- Completed training or further education as a system electronics technician (m/f/d) or a comparable qualification
- Good technical understanding and manual skills
- Routine handling of component drawings, circuit diagrams and pneumatic plans
- Independent and precise way of working
- Class 3 (or B) driving license is desirable, but not a requirement

YOU CAN COUNT ON:

- Open-ended employment relationship with attractive pay
- Flexible working hours in flexitime as well as mobile working
- 28 days annual vacation + knockout days rule in the event of illness
- Pleasant working atmosphere, short decision-making processes in a familiar environment
- Motivated, experienced and innovative team
- Modern working environment: open and modern offices
- Additional social benefits (e.g.: company pension scheme, kindergarten allowance, ...)
- Regular employee events, fruit basket, flat rate drinks
- Free parking and good transport links
- Exciting and diverse sales topics with high market potential
- Structured induction processes

FURTHER INFORMATION:

- The place of work is primarily in our company in Chemnitz
